Chapter 1: Introduction: The Canopic region – presentation of the project 1
1 Introduction 1
  1.1 Canopus, Menouthis, Heracleion, Thonis 3
  1.2 The clues leading the search 3
  1.3 The research area 5
  1.4 The causes of the submersion of these sites 5
  1.5 The objectives of the research project and the adopted approach 8

2 Problems, methodology and reflections 8
  2.1 The problems of history 9
  2.2 Survey issues in the Bay of Aboukir 10
  2.3 Electronic survey instruments utilised 11
  2.4 The magnetometric survey 12
  2.5 The sub-bottom profiler survey 12
  2.6 The bathymetric sounding survey 12
  2.7 The side-scan sonar survey 12
  2.8 The set-up of the survey procedure 12
  2.9 General method for geophysical, geological and archaeological surveys 13

3. The data produced by the surveys 15
  3.1 Summary of the survey data 16

4. Identification of sites: essential results and comments 17
  4.1 Identification of the sites 17
  4.2 Summary of the major results of the mission 18
  4.3 Comments on the results obtained 19
  4.4 Observations and further details about the sites found and studied during our missions or already known through Prince Omar Toussoun’s work: The area covering the sites pinpointed as of 1933. 20

5 General topographical results 23

6. General observations on the nature of the ground found during the excavations in Canopus and Heracleion, and the conditions of these excavations 26
  6.1 The types of ground 26
  6.2 The dispersal of the artefacts 27
Chapter 2: The ancient topography of the Canopic region – East Canopus

1. Presentation of the site 29
2. The survey of the site of East Canopus 29
3. Description of the sites at the current state of excavation 33
   3.1 Site T 33
   3.2 The site of the circular building 47
   3.3 The site of the western trench 50
   3.4 Site TW4 50
   3.5 Sites TW0, TW3, TW5 and TW6 57
   3.6 Site TW2 61
   3.7 Site TW1 65
4. Conclusion 65

Chapter 3: Heracleion

1. Presentation of the site 69
2. Methodology 71
3. Description of the principal remains discovered at the current state of survey and archaeological excavation 73
   3.1 Designation of the sites 73
   3.2 Summary of the major discoveries 74
4 Site H1: the temple of Herakles (also identified as the temple of Amon-gereb and his son Khonsu) 75
   4.1 The temenos compound, southern section 78
   4.2 The section of the ‘interior wall’ 78
   4.3 The centre-north wall of the temple 83
   4.4 The inner temple area 88
   4.5 The east wall of the temple 93
   4.6 The western walls and the mid-west wall of the temple 94
   4.7 The deposits of the northern zone 96
   4.8 The northern zone 99
5 Site H2, the Great Mole 100
6 The site of the Grand Canal 102
7 Site H3, the harbour basins 111
   7.1 The central depression 111
   7.2 The south-eastern depression 115
   7.3 The northern depression 115
8 The buildings around the temple 117
   8.1 The esplanade west of the temple 117
   8.2 The northern zone 118
   8.3 The western zone H6 120
   8.4 The area on the west side of the temple of Amon 120
## Contents

9 Distribution of the artefacts 124  
9.1 The bronze cult instruments 124  
9.2 The gold objects 124  
9.3 The lead objects 126  
9.4 Statuary and sphinxes 126  
9.5 The red granite elements 126  
10 Buildings at the periphery of Heracleion 126  
11 Conclusion 127  
General conclusion 130
